MACSTEEL®

Data Sheet

COLD ROLLED SHEET

Cold rolled steel has superior forming properties. It can be electroplated, painted and welded. This material is suitable for fabrication by forming, pressing and bending.

Thicknesses range from 0.46mm to 1.96mm.

Product application

This material can be used for domestic appliances such as fridges, geysers and stoves; and electrical appliances. Cold rolled sheets can be used for containers, office equipment and vehicle manufacturing.

Mass per sheet

Dimensions	Thickness						
Sheet size	0.46mm	0.56mm	0.76mm	0.96mm	1.16mm	1.56mm	1.96mm
2450 x 1225	11.098	13.511	18.337	23.162	27.987	37.638	47.289
3000 x 1225					34.27	45.088
