

M

EQUAL TEE

Malleable cast fitting to EN 10241.

An equal tee is also known as a straight tee. The diameter of the branch is the same as the diameter of the run pipe. Generally, all thread ends are female BSP threaded. Material is available in black or galvanised.

Malleable sizes available

Grade	Size (mm)												
Black		8	10	15	20	25	32	40	50	65	80	100	150
Galvanised	6	8	10	15	20	25	32	40	50	65	80	100	150
