

REDUCING BUSHES

Malleable cast fitting to EN 10241.

Reducing bushes are used to adapt the bore size, increasing the offering of diameters available. The larger diameter is male and the smaller diameter is female threaded BSP. Material available in black or galvanised.

Malleable cast black sizes available

Male diameter (mm)	8	10	15	20	25	32	40	50	65	80	100	150
