

REDUCING TEE

Malleable cast fitting to EN 10241.

The diameter of the branch of a reducing tee is smaller than the diameter of the run pipe. Generally, all ends are threaded female BSP. Material is available in black or galvanised.

Malleable cast black sizes available

Branch diameter (mm)	20	25	32	40	50
Female BSP thread diameter (mm)	15	15	15	15	15
		20	20	20	20
			25	25	25
				32	32
					40

Malleable cast galvanised sizes available

Branch diameter (mm)	20	25	32	40	50	65	80	100
Female BSP thread diameter (mm)	15	15	15	15	15			
		20	20	20	20			
			25	25	25	25	25	
				32	32			
					40	40	40	
						50	50	50
								65
								80
