MACSTEEL®

Data Sheet

GALVANISED SHEET | LOCK FORMING

A galvanised lock forming sheet is a cold rolled base sheet that has been covered with a zinc coating. The sheet is then hot dipped galvanised.

Product Application

Galvanised lock forming sheets are suitable for severe bending without cracking and moderate drawing operations. The coating gives the steel durability and makes it harder to scratch.

Mass per sheet (kg)

Dimensions	0.58mm	0.8mm	1mm	1.2mm	1.4mm	1.6mm
2450 x 1225	13.994	19.302	24.127	28.952	33.778*	3.603
